My Journey of Discovery

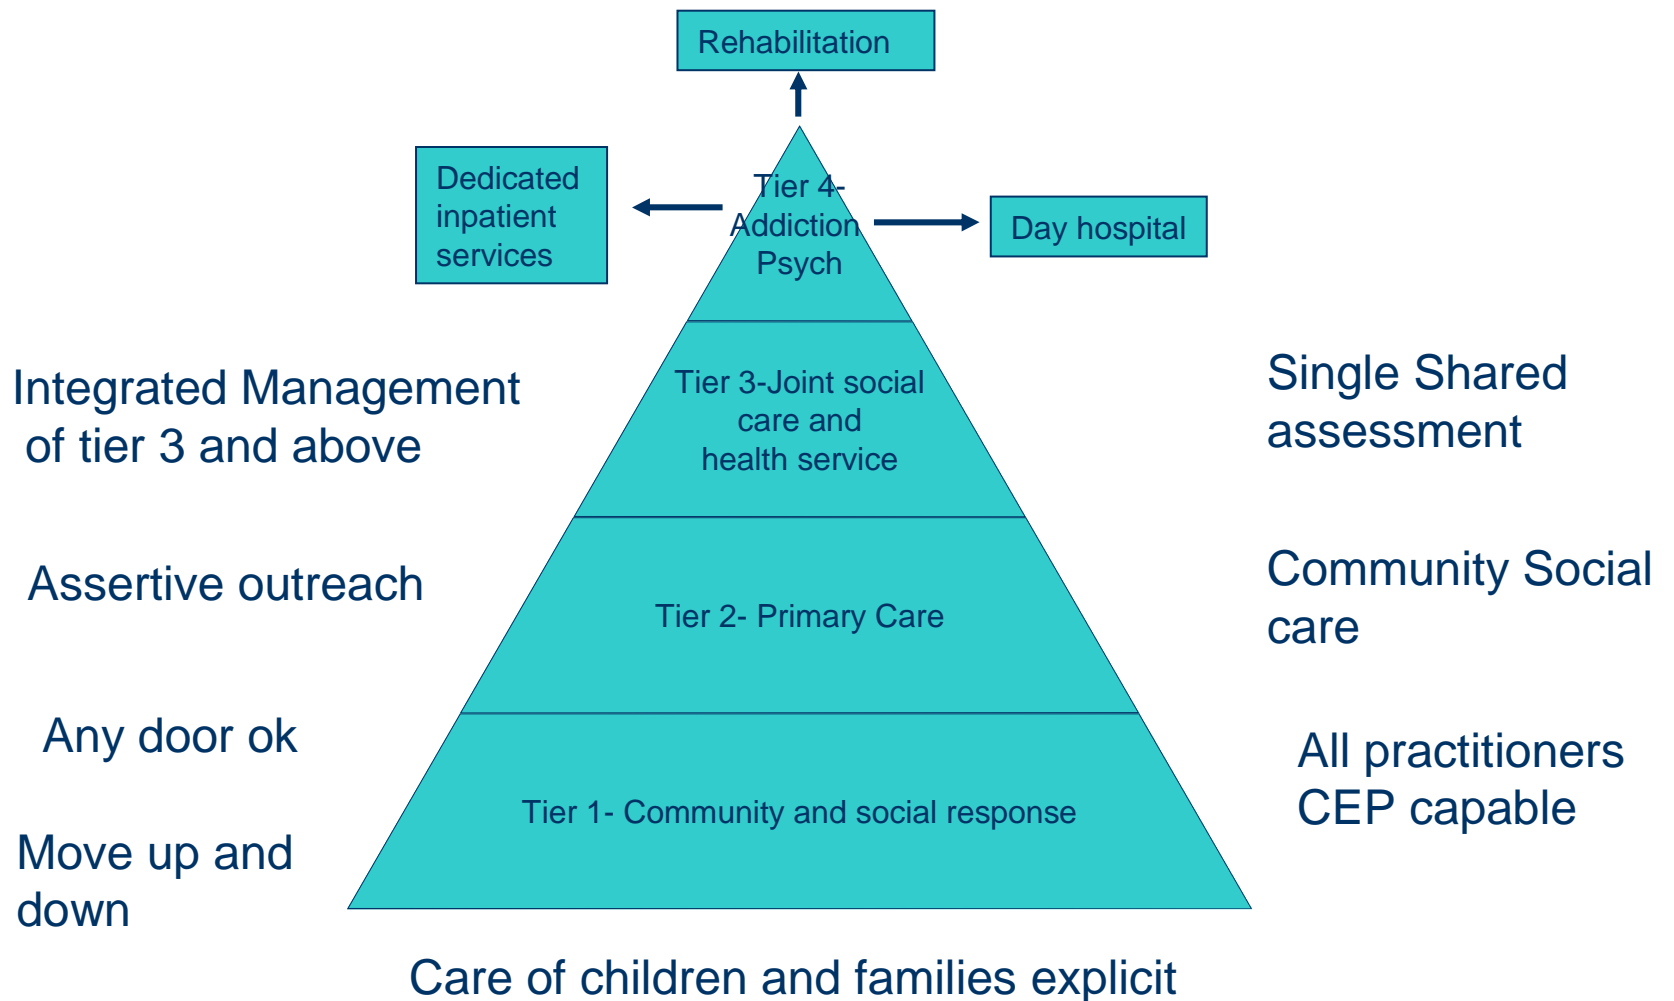

Healthy Communities – **Mauriora!**

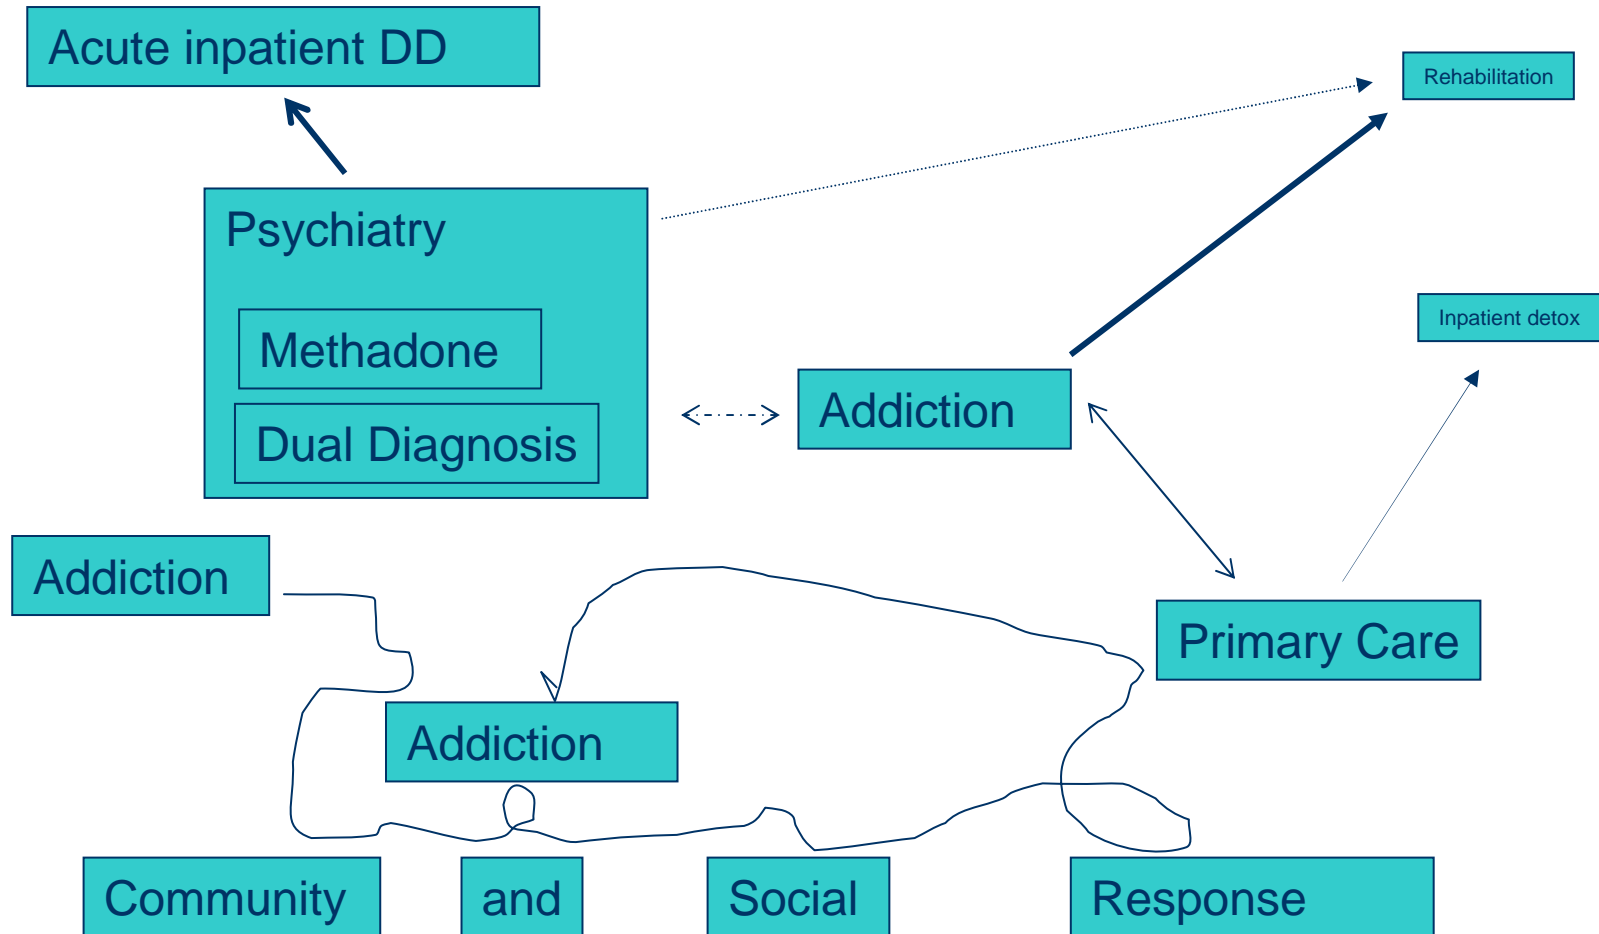

— *Healthy Communities – Mauriora!* —

Glasgow Addiction Service~2000

Lakes 2006

Some Observations

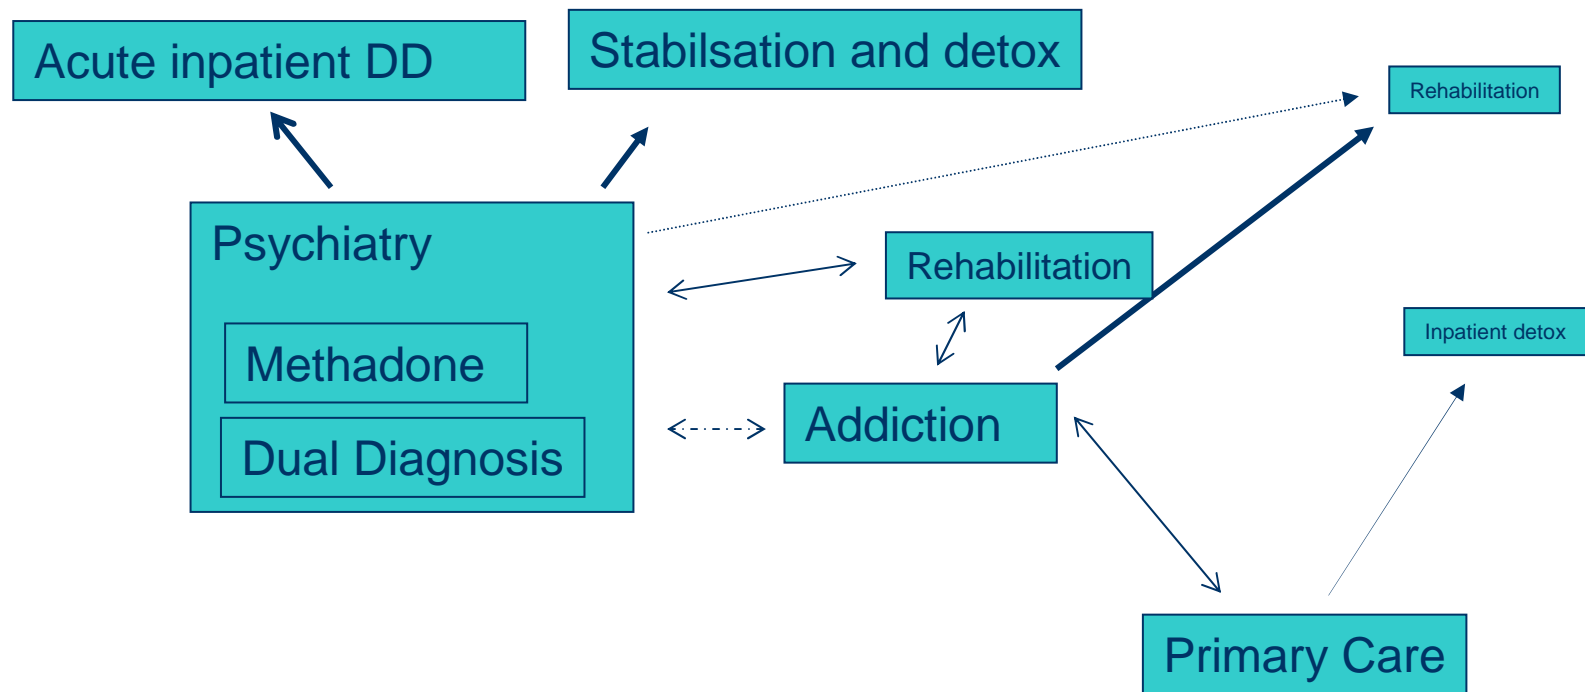

— *Healthy Communities – Mauriora!* —

- Paucity of trained staff esp with severe problems
- Lack of care pathways and access
- Primary care uninvolved
- Contracts
- Isolation and stress and lack of leadership in DD
- Unassertive addiction services
- Research- false impression, lack of understanding esp. PD and substance related problems
- No knowledge of tiered or quadrant model

- Addiction services provision of psychosocial intervention limited
- Access to rehab inconsistent
- Opportunities for training
- Psych and primary care emasculated as “medical” but with limited understanding of eclectic models
- Lack of integrative psychological narrative approach

Lakes 2010

Community and Social Response

Still no care pathways, GPs still reticent, Clinical Staffing a bit better

Healthy Communities – *Mauriora!*
