Midland Pacific Advisory Fono – 31 May 2101

Pacific Provider and Workforce Development

Background

- Ministry of Health PPDF established in 1998
- An initial \$1m investment
- Currently a \$7.4m allocation annually
- Supports the implementation of 'Ala Mo'ui activities
- Continuously being enhanced to meet provider and workforce needs
- A 'whole of sector' responsibility

Serau - Focus One Pacific health workforce development

Focus 2: Pacific provider development

Pacific Provider Development Framework

- High performing Pacific providers
- Accelerated Pacific provider development plans
- Information management and technology
- 'Ala Mo'ui monitoring framework
- Pacific Grant Fund

Other Provider Development Initiatives

- Better Sooner More Convenient
- Support to Christchurch
- Defining a Pacific Provider
- Whanau Ora

Pacific Provider Considerations

- Working Collaboratively
- Registration of Interest Process for Pacific provider development (July 2011)
- Pacific Grant Fund
- Pacific IT Strategy

Environmental Context

Better, Sooner, More Convenient (BSMC)

Fast Paced and Evolving

- Seeks to deliver a more personalised primary care system
- Services will be closer to home and patient centred
- Greater flexibility in how services are delivered
- A focus on clinical leadership and critical mass

Environmental Context

Key Messages from the DDG

- Be proactive
- Know your business
- Work collectively
- Be public

Defining a Pacific Provider

A PACIFIC PROVIDER IS DEFINED AS...

- Owned and governed by Pacific people
- Provides a service primarily but not exclusively to Pacific peoples.
- Excludes Pacific services operating within mainstream organizations.

Social Equity Committee, 2001

A PACIFIC PROVIDER MUST ALSO...

- Be responsive
- Demonstrate accountability
- Have a principle purpose to provide services to improve Pacific health outcomes
- Not receive PDF from any other MOH source
- Predominantly employ Pacific staff

ANCHORING THE FUND

- A fiscally constrained environment
- Focus on 'value for money'
- Maori PDS – developments
- 'Make noise' about the good news stories
- Alignment with government policy (BSMC)

CONSIDERATIONS 13 YEARS ON...

1. Should the definition of a Pacific provider change?
2. What will Pacific provider development needs look like in 2012 and beyond?
3. Next steps – where to from here?
4. Who is going to help us get there?
